

INTEGRATED COMPANY POLICY

BACKGROUND

Since 1972, year of the company's foundation, Itp has distinguished itself in the national and international flexible plastic packaging sector by placing the quality of its products as a mark of reliability. With the advance of the 2000s, and the advent of international regulations, it has conformed to the standards of international markets, obtaining important acknowledgment for quality, for its commitment to environmental protection and for the attention to health and safety in the workplace.

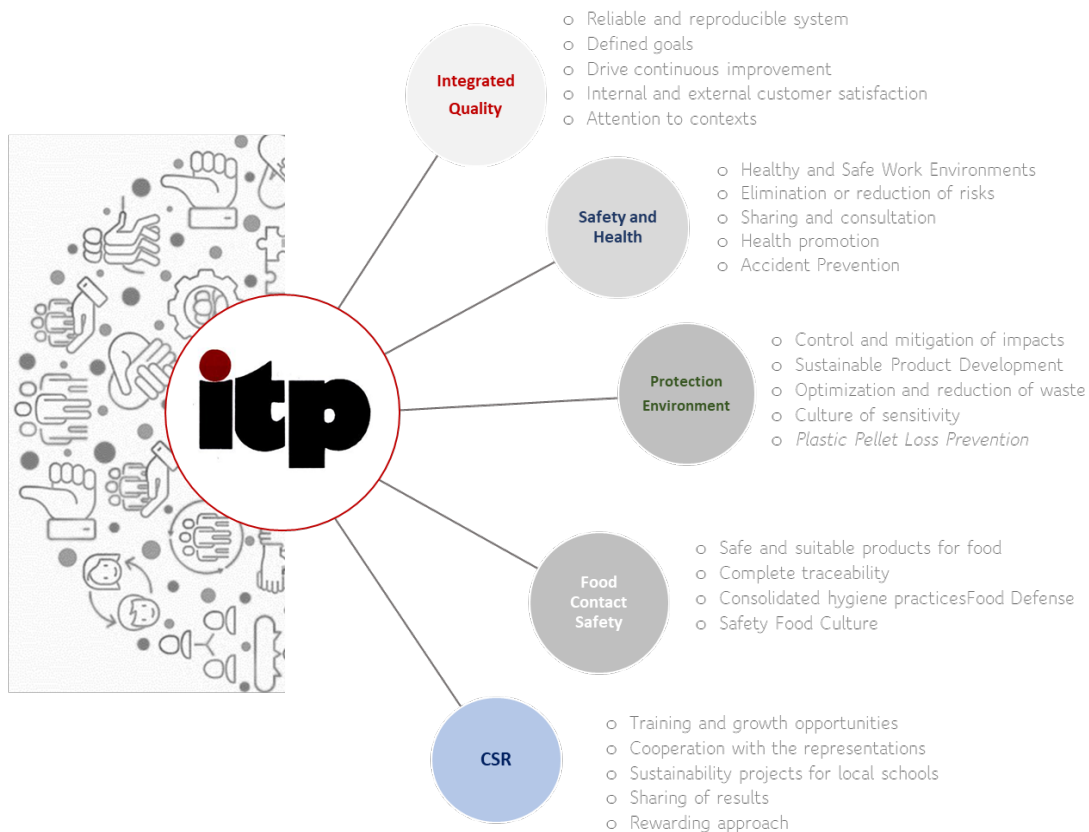

The continuous improvement and attentive attention to the needs of customers, have resulted in the voluntary adoption of the HACCP system as a preventive approach to guarantee the safety and healthiness of products intended for the food sector.

VISION

Implement innovative technologies in processes and materials to reduce environmental impact and increase people's well-being.

MISSION

The Management renews its Commitment by guiding the Organization through solid and shared values, towards an innovative and enterprising business management that ensures the necessary resources and support for the achievement of the objectives of legality, protection, safeguarding, sustainability and quality and well-being social.

The attentive look towards the future and the stimulus to anticipate topics of Global Relevance are the engine of innovation and the ability to deal with the rapid renewal of the markets and of its interlocutors. Strengthened by its Integrity and Coherence, ITP enucleates its values in the Environment, Social and Governance (ESG) for a new and competitive Business strategy to guarantee a better future for the new generations.
